Former Blackrock Hedge Fund Manager Ed Dowd looked at US insurance data and made the following findings: ([click here starting at 8:25](#))

- Since Jan.2021, **disability rate of those who remained in the workforce** during COVID-19 vaccine mandates versus those who dropped out of the workforce (and didn't get COVID-19 vaccines) is **550% higher in the vaccinated group**.
- Excess mortality is **up 40%** among those ages 25-64 who remained in the workforce in 2021 and took COVID-19 vaccines. ([click here starting 3:33](#))

What were the most vaccinated professions?

- **Doctors, nurses, pilots, police officers, firefighters, military, city workers (bus drivers, etc), teachers.**

These are the groups seeing the most sudden deaths right now.

Due to spike protein accumulation in the brain, **suicide risk is also increased in the COVID-19 vaccinated.**
